ENGLISH VERSION

In its new three year plan Medics Without Vacation puts a major emphasis on maternal and child health. Every year more than 1 million African children become motherless and vulnerable, but that really can be avoided! The doctors, nurses and midwives of MWV use simple but effective methods to guide and teach their African colleagues. The road is still long, but for us one thing clear: young mothers and helpless children should get a life they simply deserve!

FRENCH VERSION

Dans son nouveau programme prévu pour les trois années à venir, MSV mettra particulièrement l'accent sur les soins mère-enfant. Chaque année, plus d'un million d'enfants africains se retrouvent orphelins et vulnérables, une situation que l'on pourrait pourtant éviter ! Par des méthodes simples mais efficaces, les médecins, infirmiers et sages-femmes de MSV assistent leurs collègues africains. Le chemin est encore long mais une chose est sûre : les jeunes mamans et leurs enfants sans défense ont aussi droit à une existence décente !
